

# Drifters

Patrick Watson

We are drifting away  
Farther every day  
Soon we'll have nothing to say;  
We'll be too far away

Too far away  
Too far away  
From where we started the day  
From where we started the day  
We'll be too far away  
'Cause we're all drifting farther every day

And I will remember...  
Even if I'm drifting far away  
But I will remember...  
Even if I'm fading all away

I dip my hands into the sea  
Oh, I'll pour the ocean over me!  
And after all the tides had swallowed all the shore  
I couldn't find you anymore

We're the great drifters  
'Cause we are drifting away  
'Cause we're great drifters  
We are drifting away  
We are drifting away
