

Hearts In The Park

Patrick Watson

I'll take your hearts out to the park
and out of the starting gates
Down to a place you can relate
I'm gonna take you home

I'll take your thoughts out for a walk
And out of your head
And into your hands again
Down to your feet

So you can walk back home
So you can walk back home again
So you can walk back home

So I'll take your head out to sleep
What do you think that should give to me
You give me the place
Yeah you give me the space

So I can feel whole again
Yeah you give me the space
