

# Night Fall

Patrick Watson

And I fall into the water and I'm little to the world  
And I swam around under and I wrapped my arms around  
Under I drown there  
Until I go there

And I lost myself inside her  
And I made myself alone  
And these strange new surroundings came and stole my soul  
Where did I go there?  
Where did I go there?

And now I'll start to breathe again  
Until we start to drown  
Now we know, know, know

And now I can hardly hold my breath  
Now I'm starting to drown  
Gotta go, go, go

Off the wall  
Shock  
The ground fades away  
And I fall  
stop  
I fall away  
Fall away

Fall away

I have fallen to the water  
And I slowly started to drown  
And my love's after the water  
And my mind and body

Then a strange little fairy came and gave me soul  
Then she gave me her hand  
Then she swam me back to land  
Back to land  
Back to land

'Cause I can hardly start to breathe again  
As I'm swimming back to shore  
Gotta go, go, go  
'Cause I can hardly start to breathe again  
As I'm swimming back to land  
Back to land
