

Tracy's Waters

Patrick Watson

Oh I got a feeling
And it's shaking in me now
I don't know the reason why

Oh I got a feeling
And it's burning in me bright
Burns me a hole straight through all of my heart

So I went down to the riverside
And I lay down there for hours

And I jumped into the rivers hands
As it washed away our hearts

And it shines so bright
And helps me to measure when there ain't any light
And it shines so bright
And helps me to measure when there ain't any light
