# Where The Wild Things Are

**Patrick Watson**

Life sings a heavy song
I put my wolf suit on
And I howl all all night
I run around and lose lose my mind
To where the wild things are
I go where the wild things are

I take a boat all year long
And there's monsters that are chasing me all day long
But I ain't afraid of where the wild things are
I go to where the wild things are
There I'll be king of them all
Where the wild things are
