

# Damaris

Patrick Wolf

Black rain  
Floods the downs  
Ferrets burrow  
Moles make mounds  
Round your bones  
Deep underground  
But nobody knows  
Nobody knows  
How I wait for you  
Summer, Spring  
Autumn, Winter  
Here perishing

Gypsy, stray  
Bleak orphan  
No one could say  
The land you came from  
But deep in my arms  
You belonged  
But nobody knows  
No body knows  
How I wait for you  
Summer, Spring  
Autumn, Winter  
Here perishing

My god damned  
Damaris  
Killed with last kiss  
God damned  
Damaris  
I loved you

Goddam these tears  
And this religion  
Thought I was more  
Than just my father's son  
Who says in limbo  
Be where you've gone  
But nobody knows  
No body knows  
How I wait for you  
Summer, Spring  
Autumn, Winter  
Here perishing

My god damned  
Damaris  
Killed with last kiss  
God damned  
Damaris  
I loved you

And now I kiss  
I kiss the earth

Oh rise up

Rise up  
Rise up  
Now  
From the earth

And I smash my fist  
Into the earth

Oh rise up  
Rise up  
Rise up  
Now  
From the earth

I loved you

Black rain  
Floods the downs  
The black rain  
Black rain
