

The Magic Position

Patrick Wolf

So let the people talk
This Monday morning walk
Right past the fabulous mess we're in
It's gonna be a beautiful day
So do the bluebirds say
As I take your hand
And you take my kiss
And I take the world

'Cause out of all the people I've known
The places I've been
The songs that I have sung
The wonders I've seen
Now that the dreams are all coming true
Who is the one that leads me on through?

It's you
Who puts me in the magic position, darling now
You've put me in the magic position
To live, to learn, to love in the major key

And I know how you've hurt
And been dragged through the dirt
But come on get back up
It's the time to live
So give your love to me
I'm gonna keep it carefully
So deep in the treasure chest below my breast

'Cause out of all the people I've known
The places I've been
The songs that I have sung
The wonders I've seen
Now that the dreams are all coming true
Who is the one that leads me on through?

It's you
Who puts me in the magic position, darling now
You've put me in the magic position, darling so
Let me put you in the magic position, darling 'cause
I'm singing in the, the major key

Let me put you in the major key
