

# Together

Patrick Wolf

Alone again in Paris  
Travel drained  
I write to you  
You've been on my mind  
Cold days, long nights

A rooftop in Berlin  
I call confess  
The state I'm in  
These cities  
This view  
I see nothing  
Without you

And I can do this alone  
But we can do this so much better  
Together

And I can make it alone  
But we can make it so much better  
Together

London Bridge  
The Rain  
At last back in these arms again  
I'm sorry I hurt you  
I hurt me too  
Forgive my jealousy  
That's not the man  
I long to be  
By your side  
My whole life  
True love knows  
No sacrifice

I can do this alone  
But we can do this so much better  
Together

I can make it alone  
But we can make it so much  
Better together

I put my arms around your waist  
Pull you closer in embrace  
I say divided we fall but stronger  
We stand together
