

# This Kiss Tonight

Patrizio Buanne

Oh tonight, as you put on your dress,  
I found it hard to breathe. I was lost for words.  
And, as you stepped into the light,  
I loved to see you shine as everybody stared.

- Chorus -

And as the light shines bright around us,  
And the music starts to drown us,  
And we're caught up in the madness,  
Let's remember this kiss tonight.  
And, when we're older  
And the skies are turning darker  
And we find love a little harder  
Let's remember this kiss tonight.

Here I am, lost in you.  
I want the world to know how you make me feel.  
When I kiss you, I can clearly see  
Nothing else matters.  
It's you and me.

Forever, Forever you will shine  
Forever in my life you'll be.  
Remember this feeling here tonight.  
I'll keep it here inside with me.

And as the light shines bright around us,  
And the music starts to drown us,  
And we're caught up in the madness,  
Let's remember...  
And, when we're older  
And the skies are turning darker  
And we find love a little harder  
Let's remember this kiss tonight.

This kiss tonight.  
This kiss tonight.
