

# First Time Love

Patti Austin

When I look into my heart I feel  
All of the hurt that was there  
Then I look into your eyes and see  
All of the joys that we've both shared

I don't wanna wish for love too hard  
But now all my dreams are of you  
And if dreams come true  
Then you'll be my first time love

There were moments before when I thought it was love  
But I know that it wasn't nearly enough  
It's so hard to remember my sad yesterdays  
And from now to December it's Christmas always  
You know that it's true  
Yes, you are my first time love

Well, there may have been a few before  
But you are my first time love  
And nobody else could want you more than I do  
'Cause it's you that I love

Yes, it's you that I love and never more again  
Could there be a better friend  
Oh, I had my wish, now my wish has come true  
I needed some love and then there was you  
Couldn't ask for more  
'Cause you are my first time love

It's so hard to remember my sad yesterdays  
And from now to December it's Christmas always  
You know that it's true  
Yes, you are my first time love

Well, there may have been a few before  
But you are my first time love  
And nobody else could want you more than I do  
'Cause it's you that I love

Yes, it's you that I love and never more again  
Could there be a better friend  
Oh, I had my wish, now my wish has come true  
I needed some love and then there was you  
Couldn't ask for more  
'Cause you are my first time love

You are my first time love  
You are my first time love, love
