

Crazy Love

Patti LaBelle

We can't change the way we were
But we can change the way we are
All I really wanted from this crazy love
Was a night so full of stars
That our hearts could not pretend
And what I wouldn't give
To have that crazy love again

I believe in second chances
And I'm holding on for sure
To your crazy love
To your crazy love
Crazy love

I lived my 1 life for you
And honey now, now I'm left with me
Hanging on to pieces of what used to be
And no matter how I try
When I feel another's touch
It brings me back to why
I miss our crazy love so much

I believe in second chances
And I'm holding on for sure
To your crazy love
To your crazy love
Crazy love

I can light the fire alone in the dark
But maybe if we look inside there's still a spark

Said, "I believe in second chances
And I'm holding on for sure
To our crazy love
It was crazy love"
Oh oh
