

T'was Love

Patti LaBelle

Turn down the lights
Let the candles light inspire
A night that burns
With the flaming loves desire

As we open our gifts
Underneath our tree
I will think of
And remember

Our first Christmas night
Under the pale moon light
Loving you felt so right
'Twas love
Kisses that melted snow
We don't need mistletoe
Eager to take it slow
'Twas love

I need your love
Like a shining star
To guide me
With each passing day
You shine your love on me
So brightly

As we celebrate loving
Throughout the year
I will think of
And remember

I said we don't need no mistletoe
Baby, just take it slow
I need your love
We don't need no mistletoe
Babyboy just take it slow
