

You're Gonna Make Me Love Someone Else

Patti LaBelle

You gonna make make me love somebody else
if you keep on treatin me the way you do
i dont want to do
you gonna make make me love somebody else
if you keep on treatin me the way you do
i dont want to do

i done nothing to you
i just love you with my heart and soul
every time i need some lovin
you just turn cold
i aint dumb i aint stupid
i know you need love
need love like i do
cause if aint lovin me
i want to know who in the world are you lovin
tell me you dont need me around

you gonna make make me love somebody else
if you keep on treatin me the way you do
i dont want to do
you gonna make make me love somebody else
if you keep on treatin me the way you do
i dont want to do

i dont say nothin to ya
i dont say a word
when you stay out
stay out all night long
i know you got to make money
but you gotta bring you lovin home
what out there in the street
takin up
takin up all your time
cause if aint lovin me
i want to know who in the world are you lovin
tell me you dont need me around

you gonna make make me love somebody else
if you keep on treatin me the way you do
i dont want to do
you gonna make make me love somebody else
if you keep on treatin me the way you do
i dont want to do

you gonna make me love somebody
you gonna make me love somebody
you gonna make me constrate on another man

i need love just like you do
now tell me you been givin it to
i need love just like you do
now tell me you been givin it to
i dont want to do it
i dont want to do it

if you keep on baby

i goin to be gone
i need love just like you do
now tell me who been givin it to

you gonna make make me love somebody else
if you keep on treatin me the way you do
i dont want to do
you gonna make make me love somebody else
if you keep on treatin me the way you do
i dont want to do
