## Say Wonderful Things

Say wonderful things to me I think you're wonderful too Say wonderful things to me Especially I love you (I love you)

They say I was living before we met All of my yesterdays I forget Now you are the one that I'm living for And each day I love you more

So you must say wonderful things to me I think you're wonderful too Say wonderful things to me Especially I love you (I love you)

The more that I see you, the more it seems People should always believe in dreams Now all of my dreams I'm dreaming of you And someday they'll all come true

I'll never hurt you or make you cry Love will grow stronger as years go by Forever you'll be the one girl for me I'll love you until I die

(Say wonderful things)
