

# Grateful

Patti Smith

Ours is just another skin  
Simply slips away  
You can rise above it  
It will shed easily

It all will come out fine  
I've learned it line by line

One common wire  
One silver thread  
All that you desire  
Rolls on ahead

Like a ship in a bottle  
Held up to the sun  
Sails ain't going nowhere  
You can count everyone

Until it crashes unto the earth  
Simply slips away  
You can hide in the open  
Or just disappear

It all will come out fine  
I've learned it line by line

One common wire  
One silver thread  
All that you desire  
Rolls on ahead

Ours is just a craving  
And a twist of the wrist

Will undo the stopper  
With abrupt tenderness  
Die little sparrow  
And awake singing

It all will come out fine  
I've learned it line by line

One common wire  
One silver thread  
All that you desire  
Rolls on ahead
