

# No More Illusions

Patty Griffin

Here goes everything down to the wire  
I'm gonna sing like a canary on fire  
And the world won't stop, but maybe you will stay  
I apologize for rocking the boat  
But my heart gets caught on those lumps in my throat  
And these words just miss my lips somewhere along the way

You and me, we got no more illusions  
Wildcards or shadows of a doubt  
But the end ain't a foregone conclusion  
Oh baby can we live without illusions

Our long shadows cast here in the moonlight  
Cross the lawn and fade from our sight  
And the world beyond is turning like a wheel  
Every step we take is out of the past.  
Everybody says "Darling, we won't last."  
But they don't know what we know or feel what we feel

You and me, we got no more illusions  
Wildcards or shadows of a doubt  
But the end ain't a foregone conclusion  
Oh baby can we live without illusions

I can't pretend that the sparks are still flying  
Or the ember is burning stronger  
At least by now I might be getting real good at trying  
Can we try a little longer?

You and me, we got no more illusions  
Wildcards or shadows of a doubt  
But the end ain't a foregone conclusion  
Oh baby can we live without illusions
