

## Walking In My Sleep

Patty Larkin

I went walking in my sleep last night  
Believe me  
Believe me  
I'd been working up an appetite  
Believe me  
Believe me

I had a vision in my room  
You were there too  
I began howling at the moon  
You were there too  
You were there too

I went walking in my sleep last night  
Believe me  
Believe me  
I was dressed up in a veil of white

Believe me  
Believe me

I left the light on  
In my room  
You were there too  
You were there too  
And in the shower I knew not what to do  
You were there too  
You were there too

I went walking in my sleep last night  
Believe me  
Believe me  
But I had to leave before daylight  
Believe me  
Believe me
