

Fools Thin Air

Patty Loveless

There's a sweet dream on your pillow
There's a sad song in your eyes
There's a sunshine behind a dark cloud
Up above you in fools thin air

She's an old friend
She's a good friend
Hair of golden, eyes of satin
She's a won't be long friend
'Til she's gone and leaves you hangin'
In fools thin air

Like a lion rules the jungle
You're just flyin' through fools thin air
That don't mean nothin' when you've got something
That you believe in to get you there

She's an old friend
She's a good friend
Hair of golden, eyes of satin
She's a won't be long friend
'Til she's gone and leaves you hangin'
In fools thin air
She'll leave you hangin'
In fools thin air
