Hurt Me Bad (In a Real Good Way)

Patty Loveless

Would've never found you
He had wanted to stay
Oh, he hurt me bad
In a real good way

Well he opened my eyes
To a world beyond
That impossible dream
I was livin' on

And I thank my lucky stars each night
When you're in my arms and your holding me tight
I realize what it means
To have your true love

I would've never found you
He had wanted to stay
Oh, he hurt me bad
In a real good way

And I thank my lucky stars each night
When you're in my arms and your holding me tight
I realize what it means
To have your true love

When I look back on my life before
How my heart got shattered with a slammin' door
I see how it all had to be
For the two of us

Oh, the river of tears
That flow from my eyes
Was only moving me on
To this paradise

I would've never found you
He had wanted to stay
Oh, he hurt me bad
In a real good way
Oh, he hurt me bad
In a real good way
