I Did

Patty Loveless

Whoever needed you Well I did Whoever wanted you Well I did Who said she loved you More than anything And be true Well I did Yes I did Oh how I did Who laid up many nights Crying for you Well I did Oh how I did Who was the fool To give so much to you Well I did Yes I did Oh how I did Who said she loved you More than anything And be true Well I did Yes I did Oh how I did If anyone on earth Could make me happy Baby you could And if we had a chance And who would wait forever Honey you know I would Who said she loved you More than anything And be true Well I did Yes I did Oh how I did Who said she loved you More than anything And be true Well I did Yes I did Oh how I did
