

# If It's the Last Thing I Do

Patty Loveless

Pain falls around me  
Like a shadow in the night  
And it hangs like a curtain  
Til morning brings light  
I've been hurting so long  
I'm starting to wonder  
If I'll ever leave you behind  
I know I'll forget you  
It's a matter of time

If it's the last thing I do  
I'll sleep without dreaming  
Your memory won't wake me  
To cry in the dark  
When my heart isn't beating  
It might finally quit aching  
I'll get over you  
If it's the last thing I do

You're my love of a lifetime  
The one I knew would last  
And I know I'll spend my future  
Livin' in my past  
But there will come a time  
When my tears have all fallen'  
And I can keep livin' for today  
And this heartache will release me  
And I can fly away

If it's the last thing I do  
I'll sleep without dreaming  
Your memory won't wake me  
To cry in the dark  
When my heart isn't beating  
It might finally quit aching  
I'll get over you  
If it's the last thing I do

I'll get over you  
If it's the last thing I do
