

# Find My Way Back To Your Heart

Paul Anka

Another long and restless night,  
I was wrong and you were right.  
Hurts so bad each and every day  
And you're the reason I feel this way.

Let my words be the only key  
To take this back to where we used to be,  
Making it up to you.

I've got to find my way back,  
Find my way back to your heart.  
I've got to find my way back,  
Find my way back to your heart.  
I've got to find my way back,  
Find my way back to your heart.  
I've got to find my way back to your heart.

I gave so little and lost so long  
And now I'm missing what I haven't got.  
I know I hurt you when I walked away  
Saying things that lovers shouldn't say.

It's never easy when you both shut down  
But "I still love you is a lovely sound"  
Tell me you want, but I want too.

I've got to find my way back,  
Find my way back to your heart.  
I've got to find my way back,  
Find my way back to your heart.  
I've got to find my way back,  
Find my way back to your heart.  
I've got to find my way back to your heart.

What did I do? I miss you so,  
Don't fade away, can't let go.  
Do you miss me too? ( I miss you too)  
I need you, want you, be there.

I've got to find my way back,  
Find my way back to your heart.  
I've got to find my way back,  
Find my way back to your heart.  
I've got to find my way back,  
Find my way back to your heart.  
I've got to find my way back to your heart.
