

If This Isn't Love

Paul Brandt

If this isn't love
What else could it be
What's happened to you
What's happening to me
If this isn't love
What else is so strong
Or feels half as good
Or last's half as long

Now I am not an expert
On matters such as this
Romance has always left me in the dark
But with each brush of your sweet touch
And every lingering kiss
I think that Cupid's finally found his mark

Could it be a bug
Or maybe the flu
That's going around
You say that you've got it too

If this isn't love
What else could it be
If this isn't love
Then it's alright with me

If this isn't love
Then it's alright with me
