

# Learning How To Let It Go

Paul Brandt

I spend most my life  
Holdin' on with all my might  
I pull the reins too tight  
Til I, kill the thing I got

You'd think by now  
I'd have this figured out with everything  
We've been through together  
Oh, this love can't really fly  
Until I, get the courage up to cut the string

I'm learnin' how to let it go  
I'm learning now that I was just a fool to ever think I had control  
You took me heart and soul  
Now I'm learnin' how to let it,  
I'm learnin' how to let it go...

I've been wastin' time  
So I hope somehow you'll find  
A way to walk the line  
Oh, you've had so much patience with me  
You're the only one I want, you're all I need  
So here I am down on my knees  
Go on and take me  
Everything I have and all I am I give to you

I'm learnin' how to let it go  
I'm learnin now that I was just a fool to think I ever had control  
You took me heart and soul  
Now i'm learnin' how to let it  
I'm learnin' how to let it go...

This die-hard heart of mine always forgets  
You never have it all unless you let it go

Let it go

You took me heart and soul  
Now I'm learnin' how to let it  
Got to let it go to get it  
I'm learnin' how to let it  
I'm learnin' how to let it go...
