

# That's What I Love About Jesus

Paul Brandt

I've had people say  
That I'm a self made man  
I'd like to set the record straight  
Because I never could have planned  
The way my life has gone  
And the blessings I've received  
It had nothing to do with me  
I love to sing and play  
And travel with these songs  
But I've got to give the praise  
Back to where it all belongs  
Before I was even born  
He knew what my job would be  
He made me who I am for all the world to see

That's what I love about Him  
That's why I talk about Him  
And friend I'd be lost with out Him  
He makes this world make sense to me  
He let his life end  
Just so he could be my friend  
That's what I love about Jesus

Now it doesn't make me perfect  
Or any better than you  
And yes He is a crutch  
And He's my wheelchair too  
Cause I can't do it on my own  
He gives me all my strength  
His power helps me make it through each day

That's what I love about Him  
That's why I talk about Him  
And friend I'd be lost with out Him  
He makes this world make sense to me  
He let his life end  
Just so he could be my friend  
That's what I love about Jesus

So if you hear this song  
You've got to make a choice  
To just keep rolling along  
Or to listen to His voice  
Since I gave my heart to Him  
I have been set free  
And He's made all the difference to me

That's what I love about Him  
That's why I talk about Him  
And friend I'd be lost with out Him  
He makes this world make sense to me  
He let his life end  
Just so he could be my friend  
That's what I love about Jesus
