Satisfy My Soul

Paul Carrack

Satisfy my soul, let the day begin
Make the evening roll, let the big sky in
Satisfy my heart, it's so good to feel
Love is all around, and all the hurt will heal

Oh, this is what my heart needs to feel Oh, this is what my heart needs to feel

Satisfy my soul, take away this pain Something has to end, to begin again Satisfy my heart, it's so good to feel Love is all around, and all the hurt will heal

Oh healing, every moment, every wish you have comes true Healing, every feeling, that is about to come to you Satisfy my soul, let the day begin Make the evening roll, let the big sky in Satisfy my heart, it's so good to feel Love is all around, and all the hurt will heal

Oh this is what my heart needs to feel Oh this is what my heart needs to feel (Whoo, to feel)
Oh this is what my heart needs to feel (Need to feel baby)
Oh this is what my heart needs to feel (Ooh)
