

## Somewhere In Your Heart

Paul Carrack

They say in time all the truth comes to light  
When you can see past the wrong and the right  
There's a feelin' inside stronger than pride  
Finds me every lonely night  
Well I have searched the past in my mind  
How we failed to see the danger signs  
Well one good reason why we let our love die  
Is something that I've failed to find

Somewhere in your heart  
There's a lonely part that beats for me  
Somewhere in your broken heart  
There's a lonely part that beats for me

Well I have cried till my tears have turned cold  
I'd trade my pride for peace in my soul  
Please don't make me pay for the rest of my days  
For emotions that ran out of control  
We've all but closed the door on our past  
And this one chance may well be our last  
So before you decide one last look inside  
Is all my shattered dreams can ask

Somewhere in your heart
