Don't Stand So Close to the Window

Paul Kelly

Oh Marlene, how we fell What we've done now we never can tell Bottle of wine, then another Suddenly we fell into each other

Don't stand so close to the window Somebody out there might see

Then the word on the wire Would be just like Ash Wednesday bushfire Kiss me quick, kiss me warm Put your dress on and hurry back home

Don't stand so close to the window Somebody out there might see And you're not supposed to be here with me

There's a way, there's a track
One false move and there's no turning back
Turn the page, close the book
Walk out the door now with never a look

And don't stand so close to the window Somebody out there might see And you're not supposed to be here with me The walls have ears and the darkness has eyes don't you see?
