

# Don't Start Me Talking

Paul Kelly

Don't start me talking or I'll tell everything I know  
Don't start me talking, I'll spill the beans for sure  
Right before your eyes  
I'll blow it all open wide  
Don't start me talking

Don't start me talking' cause once I get the itch  
Don't start me talking, I just have to scratch  
First a little slow  
Then I start to flow  
Don't start me talking

Cheers, all you, cheers  
Help me if I fall  
Cheers, all you, cheers  
God bless you all

Don't start me talking or I'll have it all my way  
Don't start me talking 'cause night will turn to day  
Stars will run and hide  
Strong men weep a tide  
So don't start me talking

Cheers, all you, cheers  
Help me find a wall  
Cheers, all you, cheers  
God bless you all
