

I Hate to Watch You Loving Him

Paul Kelly

I hate to watch you loving him
I hate to watch you loving him
I hate to watch him loving you
Like some jumped up dream
Anyone can see that you're loving every minute
you would not be in it for the world

I hate to watch him touching you
I hate to watch him clutching you
I hate to watch him crutching you
All across the floor
Anyone can see that you're loving every minute
you would not be in it for the world

You would not be in it for the world
You would not be in it for the world
You would not be in it for the world
You would not be in it for the world
You would not be in it for the world
You would not be in it for the world

You would not be in it for the world
You would not be in it for the world
You would not be in it for the world
You would not be in it for the world
You would not be in it for the world
You would not be in it for the world

I hate to watch you loving him
I hate to watch you loving him
