

Smells Like Rain

Paul Kelly

Oh it's been so long
Since water kissed this ground
Everywhere is aching
For grace to come falling down
Now I feel a change
There's something on the wind
Can you feel it too?
It's just about to begin

Oooh, smells like rain
I do believe
We're heading for a change

Seems it's been forever
Since the mercury was low
Don't you feel the pressure
It's just about to blow
Dark electric sky
Thunder from the west
Oh my man's got a hard head
He plays it close to his chest

Oooh, smells like rain
I do believe
There's gonna be a change

Smells like rain
Belting rain
Smells like rain
Smashing rain
Wash us all again
Wash it all away
We're waiting on the rain
