

Taught By Experts

Paul Kelly

You stand there looking so surprised
Sad confusion in your eyes
I know what you're going through
Oh, baby, I've been there too
And it hurts
I was taught by experts

You say I play a cheating game
I never keep the rules the same
I learned a thing or two
What I learned I learned from you
And it works
I was taught by experts

You put the weapon in my hand
You made me what I am

Now everything has turned around
Down is up and up is down
You got your fingers burned
Your little worm has turned
In the dirt
I was taught by experts
Don't it hurt
I was taught by experts
