You stand there looking so surprised Sad confusion in your eyes I know what you're going through Oh, baby, I've been there too And it hurts
I was taught by experts

You say I playa cheating game
I never keep the rules the same
I learned a thing or two
What I learned I learned from you
And it works
I was taught by experts

You put the weapon in my hand You made me what I am

Now everything has turned around Down is up and up is down You got your fingers burned Your little worm has turned In the dirt I was taught by experts Don't it hurt I was taught by experts
