

Get Out of My Way

Paul McCartney

Crash bang wallop, I'm a lover again
I've got my eyes on the road and I'm feeling no pain
I've found a real fine woman
I'm heading to see her
Bye bye, melancholy, listen to me
We had a long long ride
But it isn't to be
I've found a real fine woman
I'm heading to see her
Get out of my way, get out of my life
I don't need anybody to tell me how to be right
Don't try to stop me, I've got the answer
I won't need anybody except my woman tonight
I can't help it if I'm starting to smile
I've got a full gas tank and it's only a mile
'Til I'll be with my little woman
I'm ready to see her
So I say
Bye bye, melancholy, listen to me
We had a long long ride
But it isn't to be
I've found a real fine woman
I'm heading to see her
Get out of my way, get out of my life
I don't need anybody to tell me how to be right
Don't try to stop me, I've got the answer
I won't need anybody except my woman tonight
