## **Growing Up Falling Down**

## **Paul McCartney**

We were growing, time was going so fast Without knowing, we were growing up fast

We were lying down, in the shade I remember the love we made

We were lying down, on the bed I remember the tears we shared

We were growing, time was going so fast, (Growing up) Without knowing, (Falling down) we were growing up fast (Growin g up, Falling down) (Growing up, Falling down)

We were laughing to, we were so I remember the fun we had We were crying loud, with the pain We will never be here again

Growing up, falling down
