

# Secret Friend

Paul McCartney

Feel like you've never fit before

Here we are  
Where are we  
Cast adrift on some uncharted sea  
I know we'll find our way  
I know we'll reach the end  
If you will say you'll be my secret friend

Night draws in, once again  
As she turns her velvet collar up  
A perfect day will end  
If you will say you'll be my secret friend

Feel like you've never fell before, once more

Night draws in, once again  
As she turns her velvet collar up  
A perfect day will end  
If you will say you'll be my secret friend

Feel like you've never felt before. once more

Here we are  
Where are we  
Cast adrift on some uncharted sea  
I know we'll find our way  
If you will say you'll be my secret friend

Feel like you've never felt before, once more

I need ya  
I need ya  
I need ya  
I need ya

Night draws in, once again  
As she turns her velvet collar up  
A perfect day will end  
If you will say you'll be my secret friend

Feel like you've never felt before, once more

Here we are  
Where are we  
Cast adrift on some uncharted sea  
I know we'll find our way  
I know we'll reach the end  
If you will say you'll be my secret friend

I need ya  
I need ya  
I need ya
