Sweetest Little Show

Paul McCartney

Well they can treat you like a brother Yeah they can treat you like a clown But if they treat you like a lover They've got the sweetest little show in town You got the sweetest little show Sweetest little show Sweetest little show in town

You've been around a long time But you're still good for a while And if they try to criticize you Make them smile, make them smile

And if they treat you like a brother Well you will never let them down But if they treat you like a lover They've got the sweetest little show in town They got the sweetest little show Sweetest little show Sweetest little show in town

You got the sweetest little show Sweetest little show Sweetest little show in town

You got the sweetest little show Sweetest little show...
