

Love Never Sleeps

Paul Overstreet

There have been times when we went to bed
Hurting from things I wish we hadn't have said
Closing our eyes and feeling alone
Falling to sleep so tired we couldn't go on
Only to find when we woke up
While we slept love kept its hand on both of us

Love never sleeps it's constantly at work
Healing where we hurt and being our hero we know
Love is always at its best it never gives us less
To keep us from defeat and love won't ever sleep

But most of the time we do real good
Treating each other the way that we should
And riding the waves of the good times that come
Sharing the laughter and sharing the fun
And even then love's at our side
I don't know what we'd ever do if we lost our faithful guide

Love never sleeps it's constantly at work...
Love never sleeps it's constantly at work...
It's constantly at work...
