

I Lost It All

Paul Rodgers

Wo I've broken so many hearts
And I've spoken
so many harsh words
I've lived a life of my own choosing
I've lived a life of winning and loosing

But I lost it all, When I lost you

I could never be happy
until I was in pain
Never be satisfied
till I was walking away
Are like a long lost friend
Calling me back Calling my name

I lost it all, When I lost you
I lost it all, When I lost you

Well now the road I travel
May be the road to hell
But every day now
Is gonna serve me well
I was born to run
But never to hide
As long as my heart is free
I'll be satisfied.

I lost it all, When I lost you
I lost it all, When I lost you
