

## Love Rains

Paul Rodgers

There's always magic in the air when my love is standing there  
There's always magic in the air, she catches the sunlight in her hair

Love rains, rain, rain, rain, love  
Rains, rain, rain, rain, love rains.

There's always sunshine in the sky when my love is standing by  
There's always sunshine in the sky, she catches the sunlight in her eyes

Yeah, yeah, yeah, so love rains, rains, love rains  
Oh, rain, rain, rain, love rains.

Sometimes the mystery in her smile  
She's keeping her secret, that's her style  
Love rains, rains, love rains  
Oh, rain, rain, rain, love rains.

Love rains, rains, love rains  
It's gonna rain, love rains.
