

# Nights Like This

Paul Rodgers

There's gonna be nights  
Nights your gonna want to make  
The time stand still  
Sealed with a kiss  
A love sweet kiss  
Nights like this

There's gonna be days  
Days full of sunshine  
Not a cloud in sight  
Wait for the night  
And love the way it is  
On nights like this

Nights like this  
Are made to last forever  
You and I will never let this go  
Nights like this  
Are made for one another  
You and I are heartbeats dancing slow

There's gonna be times  
Times your gonna wonder why it took so long  
To find happiness  
In a tender caress  
Nights like this

Nights like this  
Are made to last forever  
You and I will never let this go  
Nights like this  
Are made for one another  
You and I are heartbeats dancing slow

Nights like this  
Nights like this  
Nights like this  
Nights like this

And the love that you bring  
Will make my heart sing

There's gonna be love  
Love to make your heart beat  
Set your souls on fire  
She fulfills desire  
And true love inspires  
Nights like this

Nights like this  
Are made to last forever  
You and I will never let this go  
Nights like this  
Are made for one another  
You and I are heartbeats dancing slow

Sealed it with a kiss

Forever love the way it is  
Nights like this  
Nights like this
