

# Overloaded

Paul Rodgers

I'm picking up the pieces  
Putting myself back together  
I'm picking up the pieces  
Putting myself back together  
Feel like my head exploded  
Overloaded  
I used to walk around  
In circles all the time  
Thought I was lost but  
Found my way to peace of mind  
Now I'm picking up the pieces  
Putting myself back together  
Feel like my head exploded  
Overloaded  
Solo  
Thought I was flying high  
When I took off from you I..lunched myself into the sky  
And out into the blue  
Now I'm picking up the pieces  
Putting myself back together  
Feel like my batteries exploded  
Overloaded  
Overloaded  
I just couldn't take no more  
Overloaded  
Crawling on the killing floor  
Feel like my head exploded  
Overloaded
