Hold Me, Touch Me (think Of Me When We're Apart)

Paul Stanley

Though I know that you are sleepin' Girl, there's somethin' I must say Though the road may wind My love will find the way

Many miles have come between us And the days, they come and go Still with all we feel It never really shows

Hold me, touch me And think of me when we're apart Hold me, baby, won't you touch me And think of me here in the night? And you know it'll be alright

Though the time apart seems endless All my thoughts remain with you I believe one day We'll make our dreams come true

Our goodbyes go on forever And with all that we may say Till tomorrow comes We'll dream of yesterday

Hold me, baby, won't you touch me And think of me when we're apart? Hold me, baby, won't you touch me And think of me here in the night? And you know it'll be alright
