

It's Alright

Paul Stanley

Oh yeah
I'm pretty good at takin' care myself
I always get enough to get me by
So if you're askin' for a little love
Well, baby, there ain't nothin' I won't try

You got me knockin' on wood
I never knew that you could
Well, if you want me to stay for the night, it's alright

It's alright if you want me
It's alright if you need me
Girl, if you want me to stay for the night
Girl, if you want me to stay satisfied
Girl, if you want me to stay for the night, it's alright

I knew the minute that I picked you up
That I would never want to put you down
Don't try to tell me that you've had enough
Until you realize what you've found

I'll give you breakfast in bed
You're goin' right to my head
Girl, if you want me to stay for the night, it's alright

It's alright if you want me
It's alright if you need me
Girl, if you want me to stay for the night
Girl, if you want me to stay satisfied
Girl, if you want me to stay for the night, well, it's alright

Girl, you know, I'll be leavin' in the mornin'
You got to take what you can
Yeah, you know, that I'm givin' you the warnin'
Girl, it's just a one night stand, yeah

Come over here

Oh, it's alright if you want me
It's alright if you need me
Girl, if you want me to stay for the night
Girl, if you want me to stay satisfied
Girl, if you want me to stay for the night, well, it's alright

If you want me
It's alright if you need me
Yeah, it's alright
