

## Second To None

Paul Stanley

We both had stories, loves, and lifetimes before  
Left us wanting for more but it kept us on that journey  
With everyone we meet, we open the door  
There were others for sure, but they never got to know me

It's all a way to a life worth living  
So don't mistake what I'm givin'

When every day is done I only wanna run to you  
Let me hear the words I'm sayin'  
When you're in trouble I will be the one to pull you through  
You might not be the first but for me you're always second to none

Sometimes the fears we have will get in the way  
And the things people say can make it so much harder  
The chance for love can look you right in the eye  
Yet it passes you by

So live a life with no happy ending  
But I won't lose it all pretending

When every day is done I only wanna run to you  
Let me hear the words I'm sayin'  
When you're in trouble I will be the one to pull you through  
But for me you're always second to none

Life has a way of making things brighter, lighter  
Don't throw it away, it takes a way to see clearly, believe me

It's all a way to a life worth living  
So don't mistake what I'm givin'

When every day is done I only wanna run to you  
When you're in trouble I will be the one to pull you through  
But for me you're always second to none

When every day is done I only wanna run to you  
Let me hear the words I'm sayin'  
When you're in trouble I will be the one to pull you through  
You might not be the first but for me you're always second to none

Second to none
