

## All the Way

Paul van Dyk

Hey do you know  
You're more beautiful  
Than anyone  
Under heaven's sun

You light my darkness  
Fill my emptiness  
And when you're near I  
can feel my heart fly

Take me away now  
Take me all the way now  
Love me all the way now  
Take me away now

Hold me - don't let go, love  
Hold me - I breathe your love  
You are all I need, love  
Every time I see you

I fall in love again  
I fall in love again  
I fall in love again  
I fall in love again

Take me away now  
Take me all the way now  
Love me all the way now  
Take me all the way now

Take me away now  
Take me all the way now  
Love me all the way now  
Take me all the way now

Hold me - don't let go, love  
Hold me - I breathe your love  
You are all I need, love  
Every time I see you

Take me away now  
Take me all the way now  
Love me all the way now  
Take me all the way now
