

Complicated

Paul van Dyk

If I have little space
If I deconstruct it all
If I drink until I feel numb
If I lose a little sleep
I'll forget I thought you were the one

It's complicated
(loving this way)

Still chased by ghosts of
Little mistakes

It's complicated (4x)

All the promises
That you made to me
Unintentional lies
God I still believe

It's complicated (2x)

If I try to turn it off
If I swallow all my pride
If I love till nothings left at all
If I say but never do
If I weep a little while
If I could only make this stop

Tell me that you love me
Just tell me that you love me

It's complicated (2x)

If I bleed until I dry
Make love to the loneliness
Accept that that this is all I've got
If I convince myself
Forget whats in the past
You wouldn't still be what I want

Tell me that you love me
Just tell me that you love me
