

Crush

Paul van Dyk

I know you want me!

Can't run away, can't run away from me
I'll navigate the seven seas just to find you
Can't hide away, can't hide away from me
I'll be a shadow when the sun don't shine
I'll be a fly on the wall, your wreckingball, your wakeup call
on a sleepless night
I'll be your cigarett smoke, your junkies dope, you'll be hangin
g
by a thread and i'll be holding the rope

R: Cars and planes and boats won't do, yeah you can be sure I'll
l
find you
I know you want me
Why won't you see me?
If I suffer than you'll too, I'm not alone out in the blue
You can't escape me
I won't just disappear

Can't fly away, can't fly away from me, I'll grab your wings an
d
pull back down
Can't walk away, can't walk away from me, can't you understand
we're ment to be
I'll be the souls on your feet
Your sticky sheet
Your big black cloud on a sunny day
I'll be your shoulders chip, your sinking ship
Dont' try to turn the page, it's not that easy to split

R:

I know you want me!
