

# Everyone Needs Love

Paul van Dyk

[Gaelan:]

Are you out there?  
Getting closer to me  
'Cause I need you  
To love  
I know you're beautiful  
'Cause you're in my dreams  
But I need you  
To touch

[Eric Lumiere:]

Are you out there?  
Getting closer to me  
'Cause I need you  
To love  
I know you're beautiful  
'Cause you're in my dreams  
But I need you  
To touch

[Gaelan & Eric Lumiere:]

We're looking for somebody to love, yeah  
We won't see who's right in front, yeah  
We're all human beings, lost in dreams  
When everyone needs love  
We're searching for a soul to touch, yeah  
I can tell you there's enough, yeah  
We're all worthy of a brighter sun  
And everyone needs love  
Everyone needs love  
Yeah, everyone needs love  
Everyone needs love  
Everyone needs love  
We're looking for somebody to love, yeah  
We won't see who's right in front, yeah  
We're all human beings, lost in dreams  
When everyone needs love  
We're searching for a soul to touch, yeah  
I can tell you there's enough, yeah  
We're all worthy of a brighter sun  
And everyone needs love  
Everyone needs love  
Yeah, everyone needs love  
Everyone needs love  
Everyone needs love  
Everyone needs love

[Gaelan & Eric Lumiere:]

I know you're beautiful  
'Cause you're in my dreams  
But I need you  
To touch
