

Heart Like An Ocean

Paul van Dyk

Take away your hands
And we release the pressure
There's no need ---
There's sign like still here

Move on away for crowds
There is nothing more to see
A heart can go through battles and come back,
Ready to handle - with more to give

A heart like an ocean
Travels wide and runs so deep

Down but you're not out
Cos the rise will get the cheer
A heart can go through battles and come back,
Ready to handle - with more to give

A heart like an ocean
Travels wide and runs so deep

Down but you're not out
Cos the rise will get the cheer
A heart can go through battles and come back,
Ready to handle - with more to give

A heart like an ocean
Travels wide and runs so deep
